## CUSTOM NOTEBOOK PROGRAM

A lack of industry standard common building block components for notebook computers lead Intel® to organize a notebook program unique to OEM System Builders that has never before been accomplished. You can now purchase multiple laptop models from LAM that use the same interchangeable components. LAM Systems, Inc., through our partnership with Intel® and the VBI (Verified By Intel®) Program is striving to make your notebook computer purchases including future upgrades and service easier than ever before.

**Verified By Intel® VBI**

### Program Features

- Create customized notebook panels
- Service enhancement benefits resulting in less downtime
- Better scalability
- Easy to choose options

### Interchangeable Components

- 1) **Hard Disk Drive** - parallel ATA & Serial ATA in 40G, 60G, 80G options

- 3) **Customizable Notebook Panel** - display your company or school logo, scenic or message in full color

- 4) **Liquid Crystal Display** - available in standard or wide formats in 14.1 and 15 inch
- 5) **Keyboard** - variety of layouts available
- 6) **Battery pack** - 2 options up to 2400 mAh rating
- 7) **AC/DC Adapter** - supports worldwide conversion of AC input between 100-240V AC, 50-60Hz to AV DC output

# DESIGN IT

With the Intel® Core microarchitecture, mobile performance and battery life is taken to a new dimension. The Intel® Core Processor family delivers advanced mobile performance and is built for energy efficient power savings. Like never before, you can choose the essential ingredients that make up the core of your notebook computer. From the power supply straight through to the screen, our notebook program makes a statement both inside and outside the box. Ask your LAM sales representative about custom designing a notebook using specifications and brand name components that are correct for your business applications.

## Intel® Core™ Duo mobile processor

Intel's first mobile dual-core processor executes multiple threads simultaneously using two cores, thereby helping to maximize performance and multitasking capabilities.

## Intel® Core™2 Duo mobile processor

Introducing the world's best mobile dual-core processor based on Intel's revolutionary Intel® Core™ microarchitecture. Experience new levels of system responsiveness while running multiple applications and smarter battery performance designed to help extend mobility.

## Intel® Core™ Solo mobile processor

The Intel® Core Solo processor is a next generation single-core mobile processor that provides freedom and flexibility to live, work and play on-the-go.

# CUSTOMIZE IT...

LAM Systems, Inc. can assist you in branding your notebook(s) with your logo, symbol or graphic(s) of your choice. Together with Intel®, we have the technology to transform your laptop computer into a vibrant, unique personalized statement. This customizable notebook panel is another in a long line of LAM programs that provides our customers with a strong return on their technology investment.

Transform your notebook panel into a "mini billboard" for the world to see.
